Galerie Insider

Galerie Insider from Paris is an art platform encompassing the dialogue between works from different eras and cultures alongside avant-garde artists. Founded by Vanessa Métayer in 2016, the gallery combines the old with the new. Vanessa's talent allows shapes, colors and lines to merge together to form a symbiotic impression.

Galerie Insider is composed of three elements: the online gallery shop, interior art consultation, and exclusive exhibitions in the form of a pop-up gallery events in metropolitan cities in Europe.

The art pieces are always available online for art-lovers who cannot make it to Paris for a *café au lait* or to one of the pop-up exhibitions with a *vin rouge* tasting.

Vanessa is most likely to be found roaming art markets in France or bidding at auction houses around the world. She brings the acquired pieces back to her Parisian interior space, where they are presented to customers before being placed in one of her exhibitions or in one of her client's private home thanks to a personalized interior art consultation.

Stepping into Galerie Insider's world is like a voyage through time, guiding you through different eras and countries whilst Vanessa explains the history of each object in her space. It is also common to meet one of the artists she represents on site; hence one quickly understands that Vanessa puts a lot of time and effort into creating a personal connection with both her artists and her clients.

Galerie Insider also offers hotels, businesses and private clients interior art and décor consultation. Additionally, Vanessa's background as an art-history graduate with years of experience in the international auction market has provided her with the expertise to assist clients with full art inventories.

“The object finds me” has always been Vanessa Métayer’s life philosophy and credo.

As her nomad gallery exhibitions and interior art consultation show, her instinct has never failed her. From sculptures, paintings, lamps and unique curiosities, Vanessa Métayer has a feel for sourcing truly unique objects.

Born in Luxembourg, she grew up with her German parents and siblings living in different countries around the world. This fostered her fascination for cultures and their arts. Her whole life has been marked with treasures from the past and encountering artists. Influenced by her parents – both eager art collectors and avid travelers – Vanessa developed an eye and understanding for art in different parts of the world at a very young age.

After graduating from high school in Switzerland, she moved to the United States to study Art History, which she completed with distinction. She gained her first practical work experience at Christie's in New York, followed by several years in one of the most renowned French auction houses: Drouot.

She settled in Paris where she gained further experience over the years, working with jewelry dealers, gallery owners and decorators. During this time, she trained and sharpened her eye for objects and artworks, whilst exploring the contemporary art scene. Her network of artists and art dealers has also made her popular with interior designers and architects, who request her expertise in finding unique objects for their clients.

Vanessa Métayer works with avant-garde artists, high-profile designers and raw talents. Her trained eye, passionate personality and compassionate feeling towards an object has made her an expert in the art scene. Today, she is the owner of Galerie Insider, creating nomad gallery exhibitions throughout European cities and providing personalized art consultation worldwide.
